

Why extreme measures (business & school shutdowns, mandated masks, government overreach) over a virus that has proven **not as deadly or contagious**? Why, when the "great surge" never happened are we still threatened with lockdowns and mandates that are disrupting and crushing our lives and liberty? What is really going on?

Why are "experts" constantly changing their minds about everything around this virus, altering the data surrounding "cases" and mask effectiveness, and creating an unwarranted state of panic? What do they have to gain with the public in fear and confusion?

Is it even legal the way government shut down the economy and decided who and what is "essential"?

If you're questioning, you're not alone.

For more info please contact us heyfriendlyouvegotthis.com/take-action-to-defend-freedom/ to get involved with local efforts to change the course of our state. We need everyone to help preserve our liberty and family culture.
